An Accurate Story of Her Indisposition Told for the First Time.

Mrs. Langtry is seriously ill. She was unable to appear at the People's Theatre last night, and this morning was no better. When an EVENING WORLD reporter called at her house he was informed that she had been confined to her room since 6 o'clock yesterday, quite used up.

" If you are a reporter here is a statement made by her manager which you can see," said the butler.

He handed THE EVENING WORLD man a sheet of blue unruled note paper with the address, "361 West Twenty-third street," stamped on the top. The atstement ran as follows

The statement ran as follows:

Mrs. Langtry will be unable to appear at the People's Theatre again this week by order of her physician, Dr. Curtia, 118 Madison avenue."

She is utterly prostrated by an aggravated attack of acute tonsilitis, and it is only by the most heroic effort she has been able to appear the earlier portion of the week.

She fainted twice this afternoon from the intense pain experienced from the repeated operations she has been obliged to undergo to relieve her of her malady.

It is, however, hoped and expected that she will be sufficiently recovered to fill her engagement in Philadelphia. at the Walnut Street Theatre, next week.

her illness.

"You know English actors when they come here." said the person, "generally suffer from the climate. It affects their throats and noses. Mrs. Langtry has been suffering over a year from this climatic affection.

"The nasal passages become obstructed by the bony parts encroaching on them. Of course this effects the voice, and besides, causes great suffering. You know what it is to have your nose stopped up with a cold."

"Finally Mrs. Langtry had to go to Dr. Curtis and he performed an operation which consisted in boring away the bony part so as to make the aperture larger. This was on Sunday, March 3.

"This part was not as painful as might be supposed because the parts were treated first with cocaine. But the softer tissues had to be burned away with chromic acid, and that is where the torture came in."

"This had to be done two or three times. After the first operation on March 3, Mrs. Langtry was ever so relieved and everything seemed all right. But on Thursday she got cold and that brought on this tonsilitis."

"Yesterday, she went to Dr. Curtis to be treated, and fainted away in his office. Last night at 6, 30 she was trying to get ready to go to the theatre when she fainted again.

"She sent for Dr. Curtis and still wanted him to do something that would enable her to go to the theatre. He pointedly refused to sanction her going at all in the state of nervous prostration in which she was, and so she had to give up. The public, which supposed Mrs. Langtry to be an easy-going, luxurious creature, has no idee of her pluck and force of character."

This is he whole history of Mrs. Langtry's ailment, which is really a distressing, annoying and only too genuine a one.

There seems to have been a feeling that this crime of bribery was a growing evil and that strengous laws should be enacted to stamp it out. If this crime is not checked, the debauchery of public officials must continue.

This is not intended to convey to you that you must consider this case differently from another. It must be made out by competent syndance like another. Sot necessarily by direct evidence, for this crime is committed in secret and direct evidence is almost unobtainable. But if, according to all the circumstances as presented to you, you believe the defendant to be guilty you should say so by your-verdict.

reward or approbation hereafter and if in your judgment the case has not been made out, then you should acquit.

The evidence must show first that Fullgraff was bribed, and that his official section was influenced by that bribe. And, second, the evidence must so connect Thomas B. Kerr with Keenan, De Lacy and Jachne in the act of bribing this man that you have no reasonable doubt of his guilty connection.

The defense ask that I charge you that in view of the fact that Fullgraff is an informer, an accomplice and self-confessed perfurer, you may reject his testimony altogether. That is true. You may also reject the testimony of any other witness if you do not believe him, and you must reject halfulgraff's testimony if you do not find it properly corroborated, or you may reject it even if corroborated.

But corroboration need not be sufficiently strong as to prove the same facts standing by itself. Fullgraff's testimony is not given to compose the same facts standing by itself. If you decide that there was a corrupt combination of the Aldermen, and that their votes were given on the 30th of August, 1884, for the Broadway surface road franchise, for this large sum or some other sum of money, then the question arises whence came the money?

Gentlemen, it did not come from any disinterested party.

Gentlemen, it did not come from any disinterested party.

Here is a coincidence.

Fullgraff says the corrupt combine were to receive \$500,000.

This resolution to issue these bonds provided that this issue be for \$500,000.

Mr. Foehay and Mr. Kerr, it has been shown, arranged as to the terms on which these bonds should be sold. These second mortrage bonds were to be sold with a bonus of twelve first mortgage bonds for over \$100,000, and afterwards this was raised to fifteen owing to the slowness of the market.

'They were paid for in checks and indersed by Defendant Kerr as treasurer and cashed in large bills.

Now Fullgraff testifies that he received his bribe in \$1.000 and \$500 bills, and Brown received from him \$1,000 and \$500 bills. Other witnesses have been called to show transactions with others of the Aldermen in which they are shown to have had bills of these large denominations.

Where did that \$500,000 go ?
While the third were the term were proper charges to be made against that \$500. 000.

If they were not, and these charges are fictitions, where did the money go?

Did Thomas B. Kerr participate with wilful intent in the raising of \$500,000 or any other sum for the bribery of Aldermen? Did it pass to the Aldermen through him or some third person, or go-between? These are the questions for you to decide.
